

Why Be UCNP Certified? The Utah Certified Nursery Professional (UCNP) Program

The Utah Certified Nursery Professional (UCNP) program is intended to promote knowledgeable professional nursery and landscape professionals, giving them a competitive advantage in the marketplace. Green Industry employers give a great deal of credit for the efforts taken to pass the UCNP certification exam. If you are serious about your job and advancing your career in the nursery and landscape industry then you either are certified or will become certified, it is the easiest way to show the industry that you really know your stuff.

The time and effort you have spent or will spend on your certification is well worth the reward and the UCNP certification exam provides professionalism like no other. A certified professional demonstrates a more rounded individual that knows the Horticulture Industry, has demonstrated a working knowledge and an understanding of problems to come facing our industry. It places you in an elite class and makes you a more profitable candidate for jobs.

As a UCNP and an active member or working for a member firm of UNLA, you will be able to use the UCNP logo to promote your certification, business or job opportunities. Be proud of being a UCNP, show your customers, employers or potential employers you have the knowledge and skills to serve in the industry.
